

## Mygale Cars at Winfield Racing School !

The Life of Formula 4 - October 2017

Created in 1964 at Magny-Cours and established on the Castellet Circuit at the beginning of the 70s, the very famous WINFIELD Racing School, which has seen the start of 30 Formula 1 drivers including Alain Prost and Damon Hill, is diversifying its fleet of single-seaters. With the current F1 and FR 2.0 that are already proposed, the organisers are going to add a new model and chose to work with **MYGALE** and its FIA Formula 4.

The creation of the F4 category by the FIA in 2014, a real springboard between karting and Formula 3, continues to attract many young people and has already allowed the launch of 14 championships around the world (including 7 supplied by **MYGALE**). It is today the base of the pyramid leading to Formula 1.
