

A tailor-made customer support

The life of Formula 4 Mygale certified by FIA - April 2016

Mygale provides specific and suitable customer support in order to respond better and quicker to the requirements of their clients around the world.

Assembly operation of the F4 for the SEA championship

A new Mygale van dedicated to the UK parts service

Whether their needs are technical, operational or logistical, **Mygale** offers **custom-made services** to give the **appropriate support**.

At the moment, **Mygale** is carrying out a **new operation** on its premises showing 7 mechanics from Malaysia and Taiwan how to assemble and build 21 Formula 4 cars for the next championship in South East Asia. **Mechanical and electronic training** is provided by our engineers and Chief Mechanic to show them how to set up the single seaters.

We regularly **travel to circuits** (Mexico, China, UK, Australia...) so that our teams can share **their expertise** and **their advice** as well as undertaking any **necessary updates** for our F4 evolution.

Another service that **Mygale** provides is the **sale of parts** at races and official tests for the British MSA Formula 4 Championship. For this we employ a **fluent storeman based in the UK with RacingLine** and offer a **brand new van** that has been specially fitted out and allows **Mygale** to meet the needs of the teams even in the heat of a race.

Mygale is committed to being **on the ground at racetracks**, and **continuing to help** and remain **close to their customers**.
