

XC CROSS CAR: PRESENTATION

The life of XC Cross Car - October 2018

Have a look at the FIA XC Cross Car made by Mygale!

Impressed by the affordability of this discipline, Mygale has joined with Yamaha to design this new Cross Car, in collaboration with Camotos.

This easy-to-maintain single-seater buggy is suitable for all types of surfaces: asphalt, earth, sand and ice. It is offered at a reduced price with low operating costs.

The XC Cross Car completes the FIA Rally and Off-road pyramids as a discipline accessible to the youngest of drivers.
